I received the email for sharepoint. And yes, please, proceed with the extension request with the justification you provided.

Thanks,
Brandi

I save the letters that we received so far on sharepoint. If I did it correctly you should have received an email. So far I gave you, Allison, Davina JaNay and James access so let me know if I need to add others or if you can do that. Also for now I can request extensions based on the holiday schedule and folks being out of the office which will give additional time to decide how you want to respond. Let me know if that is how you want to proceed.

I'd like us to keep all the ones we've received in a central location that the program can access as well. Would something on SharePoint work?

Yes but I need a justification.

Do you want all the letters received, or just the new ones that have not received a response so far?

Can you request extensions? Do you have copies of all the letters received so far?

What decision has been made regarding responding to the 404 Assumption controls? Currently WD has four, with three due today and tomorrow.

- If a decision has not been made regarding the response I need to request extensions, therefore, I will need verbiage/justification to request the extension TODAY.

- **Ex. 5 Deliberative Process (DP)**

If you have time lets discuss.

Thanks

Brandi – I suspect we may be at the beginning stage of being overwhelmed with correspondence like the attachments that are now controlled, and these could end-up being entangled with litigation. Per Jeaneanne's suggestion below, can

Please see the two control letter for DD signature sent to EPA yesterday and today regarding assumption. Unfortunately they are due on January 4th but because they are assigned to the division I can request an extension, usually 10 days.

If that works let me know.

Thanks,
Erica

Hi Erica, the attached controls have been assigned to WD for your response. The due date for both is January 4, 2021. Once the responses are completed please forward me a copy of the signed and dated documents for closure in CMS.

Thanks so much
